

Business Plan 2017-19

Safeguarding the children of West Sussex

WSSCB Business Plan 2017-19

This plan has been agreed in order to ensure the WSSCB is able to deliver its core business as identified in Working Together 2015.

- (a) to **coordinate** what is done by each person or body represented on the Board for the purposes of safeguarding and promoting the welfare of children in the area; and
- (b) to **ensure the effectiveness** of what is done by each such person or body for those purposes.

In carrying out this work the WSSCB has agreed the following core business objectives:

- To optimise the effectiveness of arrangements to safeguard and protect children and young people
- To ensure clear governance arrangements are in place for safeguarding children and young people
- To oversee serious case reviews (SCRs) and child death review (CDOP) processes and ensure learning and actions are implemented as a result
- To ensure that single-agency and multi-agency training is effective and contributes to a safe workforce.
- To raise awareness of the roles and responsibilities of the WSSCB and promote agency and community roles and responsibilities in relation to safeguarding children and young people.

In addition to the delivery of its core business WSSCB has agreed three additional areas of improvement which require greater scrutiny based on audit findings, partner's reports to the board, evolving statutory guidance and inspection outcomes. The WSSCB Business Plan sets out the scrutiny and coordination activity the partnership intends to undertake across three priority areas:

- Neglect
- Child Sexual Abuse, Children Missing and High risk adolescents
- Emotional Wellbeing and Mental Health

All work by the Board will reflect the Board's commitment to scrutinising effectiveness in keeping children safe across the journey of the child. **Therefore the scrutiny of each priority area will include a focus on Early Help, Children In Need, Child Protection and Children Looked After.**

The WSSCB is particularly interested in the new service models being rolled out across West Sussex, and intends to monitor **the effectiveness of Early Help** for children, young people and families who do not meet the thresholds for statutory intervention and support by Children's Social Care. This will include maintaining a specific oversight of MASH.

The [Learning and Improvement Framework](#) published by the WSSCB contains more detailed information of how partners' improvement activities inform future priorities and is a statutory responsibility in WT 2015.

WSSCB Business Plan 2017-19

Neglect
